

DISTRIBUTOR PRODUCT ANNOUNCEMENT

SwimClear 275S Filter Single-Element Cartridge Filter

LARGEST SINGLE ELEMENT FILTER IN THE INDUSTRY

SwimClear filters are simply the most efficient single-element cartridge filters ever produced. Designed for greater hydraulic efficiency, they boast the industry's lowest head loss—saving pool owners more energy and money. A recessed, protected pressure gauge and manual air relief allow easy access to the head assembly while sealing the filter, and the lowest body height on the market makes cleaning and changing filter cartridges easier.

- » **Hydraulics that matter:** Industry's lowest head loss can increase energy savings and captures more dirt for superior water clarity.
- » **High Flow Capacity:** Design flow rate up to 200 GPM for modern highflow features and larger pools.
- » **Increased Single-element Capacity:** 38% increase in capacity, now the largest single element filter on the market = more time between cleanings.
- » **Speed + Simplicity:** Easy-Lok ring design allows quick access to internal components for quick and simple maintenance. 2" x 2 1/2" union connections makes installation and servicing fast and easy.
- » **U.S. Manufacturing:** Built and assembled in Clemmons, NC.

SPECIFICATIONS

PART NUMBER	DESCRIPTION	GTIN	CTN DIMENSIONS	CTN WEIGHT	PALLET QTY	VPL
C275S	SwimClear Single-Element Cartridge Filter 275 SF	0610377474856	40.0" x 40.1" x 18.7"	40 lbs.	8	\$686.87
