

HCF SERIES
SAND FILTER 30"

HCF SERIES
SAND FILTER 34"

HCF SERIES
SAND FILTER 36"

FILTRATION MADE EASY.

Clear, clean and safe water with easy maintenance.

The HCF Series sand filter sets a new standard for performance and longevity in the recreational water market. Designed to improve filtration and lengthen filter cycles, it also includes a UV-protected gel coat that shields the filter against the elements, preventing fiberglass blooming. Its secure lid mechanism enables easy inspection, and because it's manufactured from proprietary resins and fiberglass, it's virtually corrosion proof.

OPTIMIZED FILTER DESIGN

Multi-diffuser distribution heads and oversized laterals distribute water more evenly, lengthening filter cycle time and improving overall filtration effectiveness.

EASE OF ACCESS & SIMPLE OPERATION

The clear lid is easily accessible from the top of the filter to troubleshoot and simplify operation. The twist lock ring allows for easy in and out internal access.

HASSLE-FREE SERVICE & INSTALLATION

The 34" HCF sand filter fits through standard 36" doorways with no need to remove the door frame. The commercial-grade filters include standard unions saving time and money.

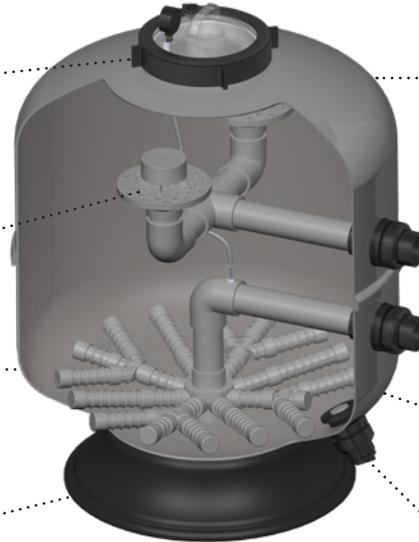

Large (8") manway with simple & secure locking ring for easy inspection

UV-protected gel coat protects the filter from the environments and algae blooming

Multi-diffuser distribution heads and oversized laterals improve filtration and lengthen filter cycle time

Manufactured from proprietary resins and fiberglass to be virtually corrosion proof

34" model fits through standard 36" doorways with no need to remove the door frame, simplifying replacement installations

All models include filter adapters: The 30" & 34" models feature 2" connections, while the 36" models offer options for 2.5" or 3" connections

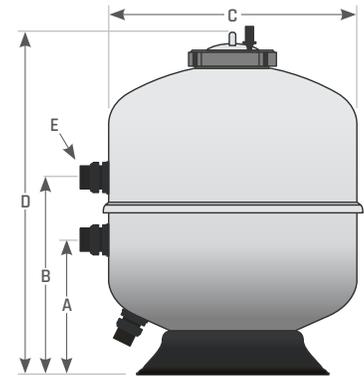

Commercial grade, PVC and Polypropylene injection molded slotted laterals resist corrosion to ensure high performance

Drain port conveniently located in the center of the filter

HCF230C
