

# AquaRay & DV5000

## Flapper & Diaphragm Disc Cleaners

### Goes the distance to suck dirt away

Hayward's AquaRay is an affordable, automatic suction cleaner with only one moving part of simple reliability. It scoops up dirt and debris from three separate intake ports. Its gliding motion makes it an ideal choice for cleaning above-ground pools and is easily installed in less than 10 minutes.

### Installed in minutes, a lifetime of better cleaning

The DV5000 vacuums up dirt and debris regardless of your pool's shape, size or surface for a more energy efficient random cleaning pattern.

It's installed in minutes without the use of tools and is powered by your existing filtration equipment.

# AquaRay

# DV5000

## AquaRay Features & Benefits

- Uses Existing Filtration System – No extra, energy-consuming booster pump required.
- Multiple Input Ports – Meets the demands of the toughest conditions.
- Swivel Foot Pad – Minimises friction for gentle movement.
- Automatic Regulator Valve – Sets the ideal suction, assuring optimal cleaning.
- Hose Connection – Provides attachment for 9.75 metres of hose to adequately cover up to a 7.3 metre-round pool.

## DV5000 Features & Benefits

- Extremely quiet operation.
- Powered by your existing filtration equipment. No additional electricity or pumps needed.
- Automatic regulator valve sets the ideal suction for peak performance.
- Includes enough hose for pool up to 12 metres long.
- Box Includes: DV5000 main body, complete hose set, hose weight, regulator valve, hose cone, return eyeball, body footpad and large disc.
