

EXPERT LINE

CHOOSE FROM TWO MODELS:

Navigator® V-Flex™ Suction Cleaner - Gunite	HSC925CC
Navigator® V-Flex™ Suction Cleaner - Vinyl	HSC925CV

FEATURE	NAVIGATOR V-FLEX
Pool Coverage*	Pool floor, walls, coves
Hose Length	40'
Pool Size	Up to 20' x 40'
Pool Surface**	Gunite, Vinyl, Fiberglass, Pebble and Tile
Turbine Type	Patented V-Flex™ variable vane technology
Drive Sequence	SmartDrive® programmed steering system
Traction System	Pod and shoes
Warranty	2 years

* Wall climbing capability and pool coverage may be affected by specific pool shapes and surfaces. The cleaner may not climb the wall under certain conditions.

** Different shoe types available for different pool surfaces.

EXPERT LINE products are not available for online resale.

OPTIONAL ACCESSORIES (SOLD SEPARATELY)

Leaf Canister makes for easy disposal and longer filtration cycles by trapping leaves and other debris.

Skimmer Vacuum Plate automatically alternates between water filtering and surface cleaning.

VacLock™ is a safety mechanism for pools with an in-wall suction line that automatically closes the suction fitting when not in use.

CLEANERS

Advanced design enhances performance and energy efficiency.

Exclusive patented technologies put Navigator® V-Flex™ on the cutting edge of clean.

Equipped with patented V-Flex variable vane turbine technology, Navigator V-Flex easily picks up larger dirt and debris while virtually eliminating clogs. Its versatile design maximizes power at almost any flow, making it the perfect partner for variable-speed pumps, and its patented SmartDrive® programmed steering determines the most efficient cleaning path around any pool for complete, reliable coverage. With these and other powerful features, it's time to rediscover your favorite pool cleaner.

V-Flex technology virtually eliminates clogs. As the turbine rotates clockwise, the variable vanes flex downward, allowing larger debris to pass easily.

Unique design virtually eliminates clogs without sacrificing energy efficiency.

Navigator V-Flex is designed to work better and last longer than any other suction cleaner. Its patented V-Flex technology, wide vacuum inlet and

unique wing design prevent clogging while delivering maximum suction power, even at low flow. This makes the cleaner ideal for use with variable-speed pumps—delivering cost-cutting energy savings with results that won't disappoint.

Intelligent technology provides unrivaled reliability and complete pool coverage.

Patented SmartDrive programmed steering helps Navigator V-Flex move faster and more efficiently around any pool shape. Its adaptive steering system improves maneuverability and eliminates hose tangling. No other suction cleaner provides such thorough, self-sufficient coverage of the pool floor, walls and coves.

Easy to use and maintain.

In less than 10 minutes and with no tools required, Navigator V-Flex connects to a skimmer or suction port and is ready to get to work. Additionally, its

fewer moving parts make it easier to service and maintain.
