

**Debris is inevitable.  
Clogging doesn't have to be.**

**EXPERT LINE**

Introducing PoolVac V-Flex™ and Navigator® V-Flex™—the next generation of Hayward's best-selling suction cleaners. Equipped with patented V-Flex™ technology, their variable turbine vanes automatically adjust to accommodate larger debris, virtually eliminating clogs and maximizing power at almost any flow, making them perfect for use with variable speed pumps. Their simplified internal design includes fewer moving parts to minimize maintenance, and their patented smart steering programs are proven to deliver complete, energy-efficient pool coverage. With these and other valuable features, it's time to rediscover your favorite pool cleaner—now with even more to love.

Contact your Hayward® sales rep to learn more about special promotions and rebates for these products.

V-Flex Technology virtually eliminates clogs. As the turbine rotates clockwise, the variable vanes flex downward, allowing larger debris to pass easily.

Revitalize your existing PoolVac or Navigator with the V-Flex Upgrade Kit.  
Ask your Hayward sales rep for more details.

**EXPERT LINE** products are not available for online resale.
