

Junction Boxes & Transformers

POOL, SPA AND BACKYARD LIGHTING

Installing lights during new pool or spa construction, or converting existing lighting has never been easier with Hayward's full line of Junction Boxes, Transformers, and Junction Box Retrofit Kits. Hayward offers kits to retrofit the most popular Junction Boxes on the market so you can convert 120V lighting to a low-voltage system in less than 20 minutes. For new construction, try our new Junction Box Transformer which has the ability to support one or two light configurations, making it the most cost-effective solution for 12V lighting. For more complex, multi-light installations, our 300W wall-mount transformer can support various combinations of Hayward's many low-voltage lighting options. No matter the application, discover how Hayward's reliable and cost-efficient lighting accessories can meet your needs.

Hayward Junction Box

Every pool, spa and backyard light whether 120V or 12V has a Junction Box. The junction box makes it easier to wire a light to the power source by bringing the connection closer to the light itself.

- Comes with strain relief to support one light or two lights
- Adaptable to 3/4" and 1-inch power entries
- Ideal for 120V and low-voltage lighting
- UL-listed

Hayward Junction Box Transformer

Ideal for low-voltage, new construction lighting applications, Hayward's patented Junction Box Transformer design can support one or two lights from the same Junction Box, making it the most cost-effective solution for 12V lighting.

- Comes in two models—one with the ability to power one light (70W total), one with the ability to power two lights (140W total)
- Patented design, unique to Hayward
- UL-listed

Hayward Wall-Mount Transformer

Hayward's wall-mount transformer can be paired with Hayward's junction box for multi-light, new construction installations.

- UL-listed
- Includes kit for direct connection to pool or spa lights.
- Can be used with various combinations of Hayward lighting options.

Transformer	Signal Coupler for Networked Versions	Kits	Watts
