LIGHTING

Turn pool illumination into backyard transformation.

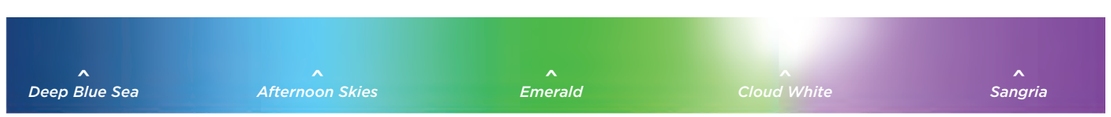
ColorLogic® 4.0
COLOR LED POOL AND SPA LIGHTING

Total System: Pumps | Filters | Heating | Cleaners | Sanitization | Automation | **Lighting** | Safety | White Goods

Color, light and motion come to life like never before.

COLORLOGIC® 4.0: DISCOVER THE BRILLIANCE.

ColorLogic 4.0 Pool and Spa LED lights are programmed with five fixed colors and seven dynamic light shows, allowing you to select the ideal ambiance for any occasion—from a romantic evening to a festive holiday party. And as you illuminate any pool or spa with vibrant colors, you'll cut back on energy costs. Built with patented Chromacore technology, these LED lights offer a life span nearly 10 times longer than incandescent lights and deliver comparative energy savings of up to 79%. Better still, they're designed for easy installation in new construction, with no bulbs, filaments, color wheels or moving parts.



BROADEN YOUR SPECTRUM WITH PROLOGIC®.

ProLogic lets you make the most out of ColorLogic 4.0 lights. When integrated with a ProLogic Automation System, their spectrum expands to include 101 brilliant colors and eleven themed light shows, including two customizable shows—all adjustable for speed, motion and brightness. ProLogic controls extend not only to lighting, but also to every feature of your backyard including filters, heaters, pumps and ancillary functions like patio lights, pond pumps and more. Plus, ProLogic lets you easily automate pH, sanitization and pump schedules to virtually eliminate the stresses of pool ownership. Best of all, you can enjoy energy cost savings of up to 90% by pairing ProLogic with EcoStar®—the industry's most energy-efficient variable-speed pump.
