

SURGE[®]

BROADLEAF HERBICIDE FOR TURF

Premium weed control at a competitive cost

WHAT IT IS

The water-based formulation of **Surge[®] Broadleaf Herbicide for Turf** provides an economical option for late spring, early summer, and fall weed control. Surge kills knotweed, plantain, oxalis, and other listed broadleaf weeds up to twice as fast as traditional 3-way amine products, and offers yellow nutsedge suppression. Highly selective in both warm- and cool-season turfgrasses, Surge can provide visible activity in hours, and weed death can occur within 10-14 days.

WHAT IT DOES

Surge controls:

- Knotweed
- Plantain
- Oxalis
- Clover
- Dandelion
- Yellow Nutsedge (suppression)
- Other broadleaf weeds as listed

Labeled for use on:

- Bluegrasses
- Fescues
- Perennial ryegrass
- Bentgrass
- Bermudagrass
- Zoysiagrass
- Other turfgrasses as listed

Ideal for use on:

- Residential sites
- Golf courses (fairways, aprons, roughs)
- Commercial areas
- Athletic fields
- Sod farms
- Roadsides
- Cemeteries
