POOL SEASON® Enzyme is a unique, stabilized enzyme system that effectively oxidizes organic contaminants in swimming pools. Routine application of this product will increase chemical efficiency and improve water clarity. **POOL SEASON® Enzyme** also treats whitefly and insect residues.

DIRECTIONS FOR USE

Initial Application: For best results, apply this product in the morning hours.

1. Turn off all water features (fountains, waterfalls, etc.)
2. With pump running, add initial dose of 20 oz. per 10,000 gallons of pool water directly to pool. A second dose may be necessary if water quality is not satisfactory within 72 hours of application.
3. Run circulation system continuously for up to 6 hours.

Maintenance Dose: Apply 6 oz. of this product per 10,000 gallons of pool water every 5-7 days.

NOTE: Under initial conditions of heavy contamination, some foaming may occur within the first 24-48 hours. This will clear as the treatment progresses.

HANDLING & STORAGE: Avoid exposure to freezing temperatures or prolonged storage above 120° F.

FIRST AID:

If In Eyes: Flush eyes with water for 5 minutes. If irritation persists, obtain medical attention.

If On Skin: Wash skin with soap and water.

If Swallowed: Drink several glasses of water. Obtain medical attention if gastrointestinal irritation occurs.

POOL SEASON® Enzyme is nontoxic, non-allergenic, non-flammable and is considered to be non-hazardous.
