

# T SERIES

## Titanium Pool + Spa Heat Exchangers

T100, T200, T300, T400, T500

An ultralight, one-piece welded pure titanium heat exchanger, designed for the most aggressive water conditions. Exceptional material strength with the highest resistance to corrosion make the T Series the perfect choice for any application.

### APPROPRIATE FOR ANY AND ALL APPLICATIONS SUCH AS:

- Applications with extremely high **salt water** concentration.
- Swimming pools heated by high temperature sources (steam, refrigerants, solar).
- Corrosive fluids.

### DISTINCT ADVANTAGES:

- Total immunity to salt corrosion even at high temperatures.
- Ultra-high thermal performance.
- Low pressure drop design
- Coil expansion handles extreme temperature differences.
- Light weight.
- Condensate sub-cooling.

ULTRA LIGHT  
SUPERIOR STRENGTH

Complete titanium  
welded design

Heating source  
on the tube side

Unique helical 8mm  
heating coils

Pool water on  
the shell side

Vertical or horizontal  
installation
