

# The AG3000 and Compressor Defender™ Power Protection Duo

Make the switch to Intermatic for unmatched protection from surges, brownouts, and short cycles.

Today's HVAC equipment is more technologically advanced and expensive; yet, it remains susceptible to damage from poor power quality. 86% of homeowners are at risk of incurring thousands of dollars in replacement costs because their HVAC equipment is not properly protected.

**Surges happen. So do brownouts and short cycles. We've got you covered.**  
**Meet the dynamic duo of power protection for HVAC equipment:**  
**The AG3000 and Compressor Defender™**

Power disturbances damage air conditioner compressors without warning. Protect vital and expensive air conditioning system components from out-of-warranty coverage caused by power quality issues, such as brownouts, surges, and short cycles with a comprehensive solution. Our powerful tag team of the AG3000 and the Compressor Defender™ provides unsurpassed layered protection from brownouts, surges, and short cycles.

Designed with trusted, state-of-the-art TPMOV® (Thermally Protected Metal Oxide Varistor) technology, none can compare to these proven performers! TPMOV eliminates the potentially hazardous failure modes that are associated with standard MOV technology.

- Fast, 10 minute or less installation onto disconnect
- Minimize nuisance callbacks to save time and money
- Industry-leading 3-year, \$7,500 connected equipment warranty on compressor and all electronic parts
- Intuitive and easy-to-troubleshoot LED status indicators
- The perfect upsell to seasonal service programs, providing peace-of-mind
- No out-of-warranty costs

## AG3000 HVAC Surge Protection

Connects to the furnace/air handler disconnect to protect high-efficiency furnaces, hydronic heating systems, and ductless mini-splits from surges and spikes.

- Unmatched surge protection ratings
- 120/240 VAC single split phase SPD for use on a variety of HVAC equipment
- Green LED protection indicator
- Meets all UL 1449 3rd edition standards
- Type 4x weatherproof and UV resistant enclosure
- 18 in. 10 gauge leads
- State-of-the-art TPMOV® technology

## AG3000 Specifications

Model #	Description	Service Voltage VAC	SPD Type	Nominal Discharge Current	Max. Continuous Operation Voltage	Short Circuit Current Rating	Enclosure
AG3000	HVAC Surge	120/240	2	10kA	L-N/G: 150V, L-L: 300V	20kA	Type 4x

## Compressor Defender™ Brownout, Surge, And Short Cycle Protection

Installs onto the AC disconnect to protect compressors and circuit boards in residential and light commercial, central AC and heat pump condensing unit applications from surges, brownouts, and short cycles.

- 120, 208, and 240 VAC loads
- LED indicators provide real-time status updates for quick and easy troubleshooting
- For use inside condensing units or externally on disconnects
- Complies with ANSI/AHRI Standard 110-2012 Range B2 for voltage drop protection
- Auto-sense voltage technology 120-240 VAC universal input voltage
- Meets ANSI/UL 1449 3rd edition requirements
- Type 3 weatherproof and UV resistant enclosure
- State-of-the-art TPMOV® technology

## Compressor Defender™ Specifications

Model #	Description	Service Voltage VAC	SPD Type	Nominal Discharge Current	Max. Continuous Operation Voltage	Short Circuit Current Rating	Enclosure
CD1-024R	<b>Brownout, Surge, And Short Cycle Protection</b>	120/240	2	10kA	L-N/G: 150V, L-L: 300V	20kA	Type 3 Outdoor
	Thermostat Relay	Control Output	Undervoltage Response Time		Short Cycle Delay	Undervoltage Protection ANSI/AHRI Standard 110-2012	
	N/C 24VAC	2A @ 24VAC N/C	3 Line Cycles	3 Min.	120	208/230	240
					104	180	208

## No nonsense 3-year, \$7,500 warranty.

Intermatic's power protection warranty is second to none and goes beyond simply covering electro-mechanical components. We cover all electronic, connected equipment parts up to \$7,500.

## Spend 10 minutes now, save yourself a call-back later.

Take the 10-minute challenge: Install one of these protective devices today and see how it can save you time and money.

- Realize an easy upsell to seasonal service programs
- Solidify customer relationships – Just a 2% increase in customer retention has the same effect on a contractor's bottom line as cutting cost by 10%.

Lighting Controls | Surge Protection | Weatherproof | Photo Controls | Timers | Defrost/Refrigeration Controls
