CARVIN®

Diverter Valve

FEATURES

Carefree PTFE Coated Diverter Seal.

PTFE sealer requires no maintenance or lubrication during years of use.

Glass Fiber Reinforced Material.

Cover, handle and diverter assembly are molded with fiber glass reinforced ABS giving more stability and strength for years.

- **Robotic Assembly.** Consistent quality thanks to robotized, tested assembly.
- **Compatible With Actuator.** Shaft spline designed to accommodate most standard actuators on the market.
- **Carvin union 2.5" FBT compatible.** Simplify your plumbing by using Carvin unions.
- **Diverting or Shut-Off Option.** Use a 2-way version for your shut-off needs and our 3 way for your diverting needs.
