

sequest test™

The **sequest test kit™** is designed to measure the amount of Jack's Magic® sequestering agents (**the pink stuff®**, **the blue stuff®**, & **the purple stuff®**) actively working to prevent and aid in removing stains and scale in the swimming pool. Sequestering agents expend or are used up as they do their job. Until Jack's Magic®, there was no practical way to gauge the amount of sequestering agent that any swimming pool will need on a weekly basis. Now you can monitor the data needed to successfully maintain a stain prevention program.

Dosage Chart

Raise Level (ppm)	POOL SIZE – IN GALLONS							
	1,000	5,000	10,000	15,000	20,000	25,000	35,000	50,000
1	0.15	0.75	1.50	2.25	3.00	3.75	5.25	7.50
2	0.30	1.50	3.00	4.50	6.00	7.50	10.50	15.00
3	0.45	2.25	4.50	6.75	9.00	11.25	15.75	22.50
4	0.60	3.00	6.00	9.00	12.00	15.00	21.00	30.00
5	0.75	3.75	7.50	11.25	15.00	18.75	26.25	37.50
6	0.90	4.50	9.00	13.50	18.00	22.50	31.50	45.00
7	1.05	5.25	10.50	15.75	21.00	26.25	36.75	52.50
8	1.20	6.00	12.00	18.00	24.00	30.00	42.00	60.00
9	1.35	6.75	13.50	20.25	27.00	33.75	47.25	67.50
10	1.50	7.50	15.00	22.50	30.00	37.50	52.50	75.00
11	1.65	8.25	16.50	24.75	33.00	41.25	57.75	82.50
12	1.80	9.00	18.00	27.00	36.00	45.00	63.00	90.00
13	1.95	9.75	19.50	29.25	39.00	48.75	68.25	97.50
14	2.10	10.50	21.00	31.50	42.00	52.50	73.50	105.00
15	2.25	11.25	22.50	33.75	45.00	56.25	78.75	112.50
16	2.40	12.00	24.00	36.00	48.00	60.00	84.00	120.00
17	2.55	12.75	25.50	38.25	51.00	63.75	89.25	127.50
18	2.70	13.50	27.00	40.50	54.00	67.50	94.50	135.00
19	2.85	14.25	28.50	42.75	57.00	71.25	99.75	142.50
20	3.00	15.00	30.00	45.00	60.00	75.00	105.00	150.00
(all amounts are shown in ounces)								
Initial Treatment up to 20 ppm			Maintenance Dosage 10-12 ppm			During stain/scale removal 15-20 ppm		

NOTE: Clouding may occur if sequestering agent level exceeds 20 ppm or if cyanuric acid and/or TDS are not within recommended limits, or if pool is overdosed with liquid chlorine.
