- **Safely & effectively lowers chlorine or bromine levels after shocking so swimming can be resumed more quickly**
- **Great for commercial pools**
- **Easy to use**

SIZES

8 oz.

1 lb.

50 lbs.

JACK'S MAGIC® AFTER SHOCK™ CHLORINE REDUCER

After Shock™, Chlorine Reducer is primarily used with Stain Solution #1, **The Iron, Cobalt and Spot Etching Stuff™** to reduce the chlorine to below 1ppm. **After Shock** can also be used to quickly lower chlorine levels after shocking and great for commercial pools!

DIRECTIONS FOR USE

Note: Overdosing will make establishing a chlorine residual difficult following treatment. It is best to use smaller amounts with repeated additions.

ADD 2 oz. (1/8 container) per 15,000 gallons to lower chlorine residual one ppm or bromine 2 ppm.

ADD through skimmer directly from container.

EXAMPLE - 8 ozs. = 4ppm Cl₂ removed in 15,000 gallons.

CAUTION: KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS

Never mix chemicals. If product comes in contact with skin, wash with soap and water. If swallowed, drink water, induce vomiting, and call a physician. If in contact with eyes, rinse well with water.
