## SIZES

32 oz.

5 gal.

55 gal.

### JACK'S MAGIC® METAL SOLUTION THE PINK STUFF®

Metal Solution, *The Pink Stuff*® is our original sequestering agent. *The Pink Stuff* is designed to prevent and help remove metallic stains by filtering metallic contaminants out of the water. In pools where copper is a known problem, *The Blue Stuff*® should be used in place of *The Pink Stuff* and in pools that have chlorine generators that use salt or pools that have a high TDS, *The Purple Stuff*® should be used.

#### DIRECTIONS FOR STAIN PREVENTION

##### Initial Dose:

Add one quart (32oz.) per 10,000 gallons of pool water. In problem water areas, two quarts are recommended.

##### Maintenance:

Maintenance levels for *The Pink Stuff* are 10 - 12 ppm. To determine the amount of *The Pink Stuff* to add to achieve this level, have pool water tested weekly with a *Jack's Magic Sequest Test*™ Kit. If a *Sequest Test* is not available, an estimated dosage of 6 - 8 oz. of *The Pink Stuff* per 10,000 gallons of pool water may be added on a weekly basis. Please keep in mind that this is strictly an estimate and the only way to accurately determine the appropriate dosage is to have it tested.

#### DIRECTIONS FOR STAIN REMOVAL

Metal Solution, *The Pink Stuff* is not recommended as a stain removal product by itself. In order to determine the appropriate method of removing existing stains, use a *Jack's Magic Stain ID*™ Kit.

#### CAUTION: KEEP OUT OF REACH OF CHILDREN

Contains: Phosphonic Acid

If swallowed, do not induce vomiting. If symptoms develop, get prompt medical attention. For skin and eyes, flush with large amounts of water. If irritation persists, seek medical attention.
