

Jandy®

# CONVENIENT, STEADY CHLORINATION

TRADE SERIES  
**EXCLUSIVE**

**TRUHLOR™**  
EROSION FEEDER

# The Jandy® TruChlor™ Erosion Feeder offers optimal performance and operation with any equipment setup.

The Jandy TruChlor Erosion Feeder provides hassle-free, convenient chlorination for in-ground pools and offers optimized operation with variable-speed pumps—even at lower pump speeds.

## Made for Variable-Speed Pumps

Engineered specifically to work with variable-speed pumps for convenient and steady chlorine flow—even in lower flow conditions.

Quickly add or remove the variable-speed conversion kit without any tools.

## Replaceable Valve

The replaceable valve assembly promotes easy cleaning, maintenance, and long-term serviceability.

## Clear and Visible

Built-in flow indicator gives you a clear view of the unit's performance, while the transparent lid lets you see when it's time to replace chlorine tablets.

## A Wide Body for Easy Maintenance

Wide body cavity makes it easy to maintain and clean out.

**Jandy**  
4.25 inches diameter

**Others**  
3.2 inches diameter

## Offline Version Available

For high-flow systems or crowded pool pads, the offline version includes molded clamps, base, and adapters for flexible tubing or hard pipe installations.

## PRO SPECS

- Available in both in-line and off-line versions
- In-line VS model is ideal for use between 20 - 50 system GPM
- Compatible with variable-speed pumps—requires only 20 GPM (in-line VS model)
- For in-ground pools up to 50,000 gallons
- Uses Standard 2-inch or 2.5-inch Jandy unions
- External dial for 100% shut off with clearly visible settings to control feed rate
- Off-line version comes standard with 2-inch pipe adapters and a durable molded mounting base (additional pipe adapter sizes available, sold separately)
- Off-line includes molded clamps and adapters compatible with 1/2 inch schedule 40 PVC pipe or flexible tubing
- Includes check valve, internal screen, and corrosion-resistant hardware
- Includes bottom drain valve for easy maintenance and winterization
- Viton o-rings on cap and valve assembly withstand chlorine
- Large capacity holds up to nine 3-inch chlorine tablets or five pounds of 1-inch tablets
- Works with trichlor chlorine tablets
