12V Integrated LED Accent

Kichler's new and improved 12V integrated LED accent light has the durability you expect with an enhanced modern look, stronger performance and superior light quality.

This updated LED accent uses almost 60% less energy and provides even more light output versus the prior design. Less energy consumption allows more fixtures to be placed on a run while providing the homeowner a system that costs less to operate.

FEATURES & BENEFITS

- Integrated, fully sealed and encapsulated fixtures keep all critical components protected against the elements
- 9 to 15 volt operating range to assure consistent light output throughout a run
- Spot light, flood light and wide flood light beam options puts light where you want it
- 4,000 volt surge protection guards against power irregularities that can be a hazard to LED landscape lighting
- Custom T.I.R. (Total Internal Reflection)
 acrylic optics assure no halos or scallops —
 just superb, center-to-edge uniformity for
 clean, clear light
- True delivered lumens and beam spreads, unlike LED lamps used within socketed fixtures
