

## Features and Benefits

- Lightweight, thermoplastic design resists process and atmospheric corrosion.
- Pressure rating 150 psi max for 1-1/2 - 3", 100 psi for 4" (non-shock water at 73° F).
- Blue PVC impact resistant molded, replaceable handle
- PVC with EPDM o-rings and PE seats.
- 3-year limited warranty
- Features a blocked seat carrier, to prevent blowout if union nut is removed while valve is under pressure in the closed position. Carrier is also adjustable for seat-wear. Seat carrier is threaded into the body. The handle can be removed and used as a spanner wrench to tighten the carrier to adjust for seat wear. It can also be used to unthread the carrier to disassemble the valve.

*NOTE: For industrial and chemical process piping, Colonial recommends the Full Block® Series TUBV with Teflon® Seats..*
