

SAFETY DATA SHEET

Date issued : 06/10/2024

SDS number : Life ELITE BROM TABS - Canada

Life ELITE BROM TABS

1. Identification

Product identifier: Life ELITE BROM TABS

Chemical family: Halogenated Hydantoin

Relevant identified uses: Spa Sanitizer

Distributor

Alliance Trading, Inc.
109 North Park Blvd., 4th Floor
Covington, LA 70433

Emergency telephone number (24 hour)

24 Hour Emergency Phone Number: 1-888-670-7665

2. Hazard identification

Classification of the substance or mixture

Health hazards:

Acute Toxicity (Oral), Category 4

Skin Sensitization, Category 1

Skin Corrosion, Category 1B

Environmental hazards:

Acute Hazards to the Aquatic Environment, Category 1

Label elements

Corrosion

Environment

Exclamation
mark

Signal word: DANGER

Hazard statement(s)

H302: Harmful if swallowed.

H314: Causes severe skin burns and eye damage.

H317: May cause an allergic skin reaction.

H400: Very toxic to aquatic life.

Precautionary statement(s)

Prevention:

P260: Do not breathe dust/fume/gas/mist/vapours/spray.

P273: Avoid release to the environment.

P280: Wear protective gloves/protective clothing/eye protection/face protection.

P301+P330+P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

P303+P361+P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].

P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P310: Immediately call a POISON CENTER/doctor/...

P333+P313: If skin irritation or rash occurs: Get medical advice/attention.

P391: Collect spillage.

P264: Wash ... thoroughly after handling.

P270: Do not eat, drink or smoke when using this product.

P272: Contaminated work clothing should not be allowed out of the workplace.

P405: Store locked up.

P501: Dispose of contents/container to ...

P362+P364: Take off contaminated clothing and wash it before reuse.

SAFETY DATA SHEET

Date issued : 06/10/2024

SDS number : Life ELITE BROM TABS - Canada

Life ELITE BROM TABS

Hazards not otherwise classified: May form combustible dust concentrations in air. contact with water liberates toxic gas.
EUH031: Contact with acids liberates toxic gas.

3. Composition/information on ingredients

Chemical name	% w/w	CAS No.
Bromo-chloro-5, 5-dimethylhydantoin	94 - 98	32718-18-6

4. First-aid measures

Eye: Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. See a doctor immediately.

Skin: Remove contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Ingestion: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Inhalation: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Most important symptoms and effects, both acute and delayed

Eye: causes serious eye damage

Skin: Causes severe skin burns. Exposure to wet skin may cause burns.

Skin absorption: May cause an allergic skin reaction

Ingestion: Harmful if swallowed

Inhalation: Irritant to upper respiratory tract. Shortness of breath, headache, and nausea.

Indication of immediate medical attention and special treatment needed, if necessary: Corrosive. No specific antidote. In case of ingestion, DO NOT induce vomiting. Treat symptomatically and supportively. Probable mucosal damage may contraindicate the use of gastric lavage.

5. Fire-fighting measures

Suitable extinguishing media: Dry powder, carbon dioxide or water spray. Water may be ineffective. In case of exothermic decomposition and appearance of smoke, water should be used to suppress it. DO NOT use dry chemical extinguisher containing ammonia compounds.

Explosion hazards: Forms explosive mixtures with combustible, organic or other easily oxidizable materials. When heated to decomposition, may release poisonous and corrosive fumes. Dust may form a weak explosive mixture with air (class St1), but is not sensitive to ignition from electrostatic discharges.

Fire fighting procedures: Cool containers with water spray. In closed stores, provide fire-fighters with self-contained breathing apparatus in positive pressure mode.

6. Accidental release measures

General procedures: Evacuate area. Use respirator with combined filter (inorganic gas and dust), gloves, chemical safety goggles and body covering clothes. If material is decomposing, use self-contained breathing apparatus and a fully encapsulated suit. ENVIRONMENTAL PRECAUTIONS: Prevent entry into sewers and watercourses.

Release notes: Sweep up, place in a suitable container and hold for waste disposal. Avoid raising dust. Ventilate area and wash spill site after material pick up is complete.

Special protective equipment: Use respirator with combined filter (inorganic gas and dust), gloves, chemical safety goggles and body covering clothes. If material is decomposing, use self-contained breathing apparatus and a fully encapsulated suit.

7. Handling and storage

Precautions for safe handling: Keep container tightly closed when not in use. Avoid contact with skin, eyes and clothing.

Conditions for safe storage: Keep away from all sources of ignition. Recommended storage temperature below 30°C. For transportation purposes, it is possible to store at temperatures up to 50°C. Store in a dry, well-ventilated area. Store away from incompatible materials (see

SAFETY DATA SHEET

Date issued : 06/10/2024

SDS number : Life ELITE BROM TABS - Canada

Life ELITE BROM TABS

"materials to avoid").

8. Exposure controls/personal protection

Exposure controls

Control parameters				
		Occupational exposure limit values		
Chemical name	Type		ppm	mg/m ³
Bromo-chloro-5, 5-dimethylhydantoin	OSHA PEL	TWA	N/E	
	ACGIH TLV	TWA	N/E	

Appropriate engineering controls: Use local exhaust as necessary, especially under dusty conditions. Ventilation must be sufficient to maintain atmospheric concentration below recommended exposure limit.

Individual protection measures, such as personal protective equipment

Eye / face protection: Wear chemical safety goggles.

Skin protection - hand protection: Wear neoprene gloves and body covering clothes and boots.

Respiratory protection: Respirator with combined filter (inorganic gas and dust).

Occupational hygiene practices: Do not eat, smoke or drink where material is handled, processed or stored. Wash hands thoroughly before eating or smoking. Safety shower and eye bath should be provided.

9. Physical and chemical properties

Physical state: Solid

Appearance: White to off-white tablet

Odor: Faint halogenous odor

Melting point: Not applicable (decomposes)

Initial boiling point and boiling range: Not Applicable

Flash point: Not Applicable

Evaporation rate (n-butyl acetate = 1): Not applicable under standard conditions

Explosion limit / flammability limit notes: Not Available

Vapor pressure: 9.35x10⁽⁻³⁾ Pa (25°C)

Relative vapor density: Not applicable under standard conditions

Relative density: 1.8 to 2.0

Solubility: .22 g/100ml at 25°C

Partition coefficient n-octanol/water (logarithmic value): Kow = <1 (pH 5-9)

Auto-ignition temperature: Not Available

Decomposition temperature: > 160°C

Oxidizing properties: Not sufficient for classification as oxidizer (Method A17 & UN Test 0.1)

10. Stability and reactivity

Reactivity: No reactions known.

Chemical stability: Stable under normal conditions.

Conditions to avoid: Exposure to moisture. Heating above decomposition temperature.

Possibility of hazardous reactions: Contact with combustible materials may initiate decomposition of the material and emission of smoke.

Hazardous decomposition products: CO, HBr, Cl₂, NO_x, HCl, CO₂

Incompatible materials: Oxidizing agents, bases, and combustible organic materials.

SAFETY DATA SHEET

Date issued : 06/10/2024

SDS number : Life ELITE BROM TABS - Canada

Life ELITE BROM TABS

11. Toxicological information

Acute toxicity

Acute oral toxicity LD₅₀: 929 mg/kg - Rat

Skin corrosion / irritation: Corrosive

Serious eye damage / irritation: Corrosive (expected)

Respiratory or skin sensitization: Sensitizer

Germ cell mutagenicity: Mutagenic by the Ames Test. Mutagenic in the mouse lymphoma L5178Y test system. Non genotoxic in an in-vivo in micronucleous test in mice. Non genotoxic in an in-vivo liver unscheduled DNA synthesis (USD) assay.

Carcinogenicity

IARC: Not classified as a carcinogen.

Notes: Not included in NTP 14th Report on Carcinogens.

Specific Target Organ Toxicity - single exposure: No effects on specific target organs have been identified.

Specific Target Organ Toxicity - repeated exposure: No effects on specific target organs have been identified.

Aspiration hazard: Not expected to occur.

12. Ecological information

Ecotoxicological information: BCDMH and the main degradation product DMH are biodegradable and do not persist in the environment.

Aquatic toxicity, both acute and chronic

96-hour LC₅₀: 1.2 mg/l (eastern oyster, Acute flow through)

1.9 mg/l (Mysid shrimp, Acute flow through)

0.4 mg/l (Rainbow trout, Static)

0.46 mg/l (Bluegill sunfish, Static)

1.6 mg/l (Sheepshead minnow, Acute flow through)

48-hour EC₅₀: 0.75 mg/l (Static) (Daphnia Magna)

Bioaccumulative potential: Based on low Kow values, i.e. less than 1, BCDMH would not be predicted to significantly accumulate in aquatic organisms, or absorb to organic material in soil or sediment.

Other adverse effects: Mobility in soil: There will be no exposure of BCDMH to soil. The main degradation product, DMH, is mobile in soil.

13. Disposal considerations

Disposal methods: Dispose of in approved landfill sites or an approved incinerator. Avoid access to streams, lakes or ponds. Observe all federal, state and local environmental regulations when disposing of this material.

Empty container: Crush and bury empty containers. Do NOT throw into public waste disposal site. Avoid contact with organic materials and moisture. See conditions to avoid in Section 10.

14. Transport information

USA Department of Transport Regulations (DOT)

UN proper shipping name: Oxidizing Solid, Corrosive, N.O.S. (Bromochloro-5, 5-Dimethylhydantoin)

UN number: UN 3085

Transport hazard class(es): 5.1

Secondary hazard class/division: 8

Packing group, if applicable: III

Hazard label: Oxidizing Agent (5.1) and Corrosive (8)

Environmental hazards - marine pollutant: Yes

ICAO / IATA - air

UN proper shipping name: Oxidizing Solid, Corrosive, N.O.S. (Bromochloro-5, 5-Dimethylhydantoin)

15. Regulatory information

UNITED STATES

Dot label symbol and hazard classification

Oxidizing

SARA Section 311/312 Hazard Categories

311/312 Health hazards: This product is a hazardous chemical under 29CFR 1910.1200 and is categorized as an IMMEDIATE, DELAYED HEALTH and REACTIVITY physical hazard.

313 reportable ingredients: This product does not contain a chemical listed at or above de minimis concentrations.

CERCLA Hazardous Substances and Reportable Quantities (RQ)

CERCLA regulatory: Not listed.

FIFRA (federal insecticide, fungicide, and rodenticide act): This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Below you will find the hazard information that is required on the EPA pesticide label.

General comments: HAZARD INFO FOUND ON BROMINATING TABS EPA LABEL:

DANGER. Corrosive. Causes irreversible eye damage and skin burns. Eye contact may cause loss of vision. Harmful if inhaled. Irritating to nose and throat. Harmful if absorbed through skin or swallowed. This product is toxic to fish and aquatic organisms. Strong oxidizing agent.
