Stampable Overlay SC-60

Stampable Concrete Overlay

Brickform Stampable Overlay SC-60 is an add water resurfacing product made to be textured or stamped. Stampable Overlay is designed for use with Overlay Liquid Colorant, Liquid Release, and texturing tools. Stampable Overlay creates durable decorative finishes over existing concrete.

- 27 ft² per 60lb bag at ¼" thickness
- Use with Triple Seven Bond Coat
- Fiber Reinforced
- Interior or Exterior Use
- Available in White or Gray base

SM Pro Plus

Rough Grade Micro-Topping

Brickform SM Pro Plus is an add water, cementitious resurfacing product designed to be applied with a hopper gun or trowel. It can be patterned and textured to create the look of brick, stone, tile, or other unique specialty finishes. SM Pro Plus is mixed with water and can be integrally colored using BRICKFORM Overlay Liquid Colorant.

- 150 to 300 ft² per 60lb bag
- Apply at ¼" to ¾"
- Integral color and/or stain
- Available in White or Gray base
- Interior or Exterior Use

CEM-COAT PLUS

Colored Cementitious Coating

Cem-Coat is an opaque, high-strength, cement-based concrete coating. Cem-Coat is perfect for any unsealed concrete surface that needs to be re-colored. Applied by airless sprayer or by roller, Cem-Coat creates a durable architectural coating for your unsealed concrete. Cem-Coat is an opaque coloring, but may be antiqued with Antique-It prior to sealing.

- UV-resistant
- Suitable for all cementitious surfaces
- Approx 200 ft² per 8lb bag
- Interior or Exterior Use
- Available in White base

Overlay Liquid Colorant

Overlay Liquid Colorant by Brickform is specifically designed for use with Micro-Topping, SM Professional Grade, SM Professional Grade Plus, and Stampable Overlay (SC-60). Each pack contains 10-ounce bottles, perfectly measured for a single bag application.

The colors shown are approximate representations using Brickform Overlay Liquid Colorants with Brickform one-component overlay systems. Due to the variations in Brickform overlay mix designs, colors will vary. A mockup is required to determine the final coloration.

OVERLAY COLORING GUIDE

Stampable Overlay OL-60

Stampable Concrete Overlay

Stampable Overlay OL-60 offers the same features as Stampable Overlay SC-60 but is specially designed to work with Brickform Color Hardener and Antique Powder Release.

- 27 ft² per 60lb bag at 1/4" thickness
- Available in Gray base
- Use with Brickform Color Hardener
- Interior or Exterior Use
- Available in Gray base

Triple Seven Bond Coat®

Primer for Cementitious Overlays

Triple Seven Bond Coat is a reactive primer designed to work with Brickform Overlays by creating a chemical link between the concrete and the overlay. It prevents the concrete from absorbing water from the overlay material, making it easier to spread and achieve a smooth surface.

- 160 to 200 ft² per gal.
- Reactive primer
- Enhances bonding to concrete
- Available in 1 gal. bottles, and 5 gal. buckets

Vertical Mix

Vertical Stamp & Carving Mix

Vertical Mix is a lightweight vertical overlay designed for texturing vertical surfaces, from 1/4" up to 2" and creating simulated stone, rock, tile, slate and other natural surfaces. It is composed of cement, polymers, lightweight aggregates and admixtures. It may be applied to vertical surfaces such as wood, drywall, concrete, blocks, etc.

- 1/2" thickness covers approximately 10 ft² per 40lb bag
- Available in Gray base
- Color with Overlay Liquid Colorant or stain
- Easily textured by carving and stamping

Additional Overlay Materials

A complete line of Brickform overlay products, sealers, maintenance products and installation videos are available for viewing online at www.brickform.com or by scanning the QR code below.

- Add Polymer Overlays
- Design Tape
- Sealers and Coatings
