

CONCENTRATED MORTAR COLOR:

Easy To Use Colors For Uncompromising Specifiers

"A" Series Color

CONSISTENT

SGS Mortar Colors have set the standard for decades. Our innovative formulas, consistent coloring and depth of color choices enhance the beauty and value of brick, stone, and colored concrete block.

EASY

All mortar colors are shipped in proportioned packages, which have been accurately pre-weighed and measured, making work at the job site faster and easier. Each individual package is designated as one color unit. It doesn't get much easier.

CREATIVE

The mortar colors shown are achieved by the addition of one color unit to one bag of prepared masonry cement or weight equivalent of portland and lime mortars. Shade variations can occur due to printing limitations, difference in local cements, sand, mix design and workmanship. (See Table back cover.)
