

## CLEAN-OUT-PLUG WRENCH COP-2

- Facilitate the installation and removal of those hard to reach clean-out plugs.
- 30" length easily reaches the bottom of skimmers and main drain sumps.
- Sized for both 1 1/2" and 2" clean-out plugs.
- Square tubular steel shaft.
- Rugged welded construction.
- A must for every service truck.
- Pays for itself on the first job.

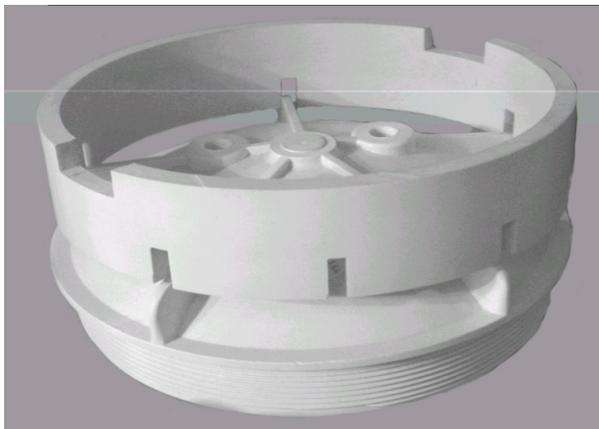

## HYDROSTATIC VALVE WRENCH HVW-1

- Functions as a "Special Socket" to adapt our CLEAN-OUT-PLUG WRENCH (COP-2) to the Hayward Hydrostatic Valve.
- Fits tabs on the Hydrostatic Valve snugly.
- The HVW-1 is stronger than the tabs.
- Rugged PVC construction.

## Filter Lid Wrench FLW-1

Circular PVC wrench that when used with the COP-2, Clean-Out-Plug wrench allows the removal and/or replacement of the lid of Seablue, Richardson, and Baker-Hydro sand filters without damage to the filter tank.
