

Safety

Fencing

Professional

Secure the perimeter of your swimming pool with professional fencing that's attractive and remarkably easy to use.

Safe 'n Secure

Safe 'n Secure

Although nothing can replace adult supervision, Safe'n Secure Fencing adds an extra layer of protection from curious minds.

Safe 'n Secure Fencing is available in 3, 6, 9, 12 and 15 foot sections, with support poles spaced every three feet. It is best to design your fence installation using as many 12 or 15 foot sections as possible. The fence height is 48 inches and is constructed from black mesh to provide better visibility of the pool. One or more fence sections can be easily removed when desired. Standard "gate" openings are formed where two sections come together. Safe 'n Secure Fencing can also be ordered with an optional self-closing and self-latching gate.

An optional self-closing and self-latching gate may be ordered with your fence.

Flush-fit caps secure your anchor sleeves from dirt and debris when your fence is not in use.

Merlin Safe 'n Secure Fencing is attractive and unobtrusive. Its' design combines practical protection with a clean look. It can be designed to fit any pool.

Safe 'n Secure Fencing uses superior strength aluminum quad-core poles.

Special spring-lock hardware latches each section to the next. Lock for safety.

Merlin Safe 'n Secure Fencing features weather-resistant heat-sealed black mesh fabric and sewn top and bottom hems.

Safe 'n Secure Fencing is simply the most versatile and convenient fencing solution available to swimming pool owners who want to add an additional layer of protection around their pools. It's the ultimate in backyard barriers, a removeable fence that blocks unwanted entry without obstructing visibility.

Merlin's Safe 'n Secure Fencing features a two year limited warranty.
