Build this fireplace in a day!

No mortar, no cutting, no mess! Romanstone Hardscapes introduces true “glue it yourself” outdoor living kits. If you can use simple tools and follow step by step instructions, you can build a professional quality outdoor fireplace in one day! On a prepared base, many customers report building their kit in as little as four hours! You can easily combine your fireplace with other Romanstone do it yourself outdoor living kits to make a complete and matching outdoor living area that you can enjoy and your neighbors will envy.

All Romanstone kits come with detailed instructions. This makes building your fireplace kit simple.
