

## Instructions

**NOTE:** Cationic polymers used in many clarifiers, flocculants and polyquat algaecides should not be dosed to swimming pool water at the same time as metal control products. Cloudy water, precipitation and reduced product effectiveness may result. Wait 24 hours between additions.

### Directions for use:

This product is designed for use in properly balanced spa water.

**Initial Treatment of Fresh Fill:** Add 8oz per 200 gallons directly to spa water.

**Weekly Maintenance:** Add 1 oz per 200 gallons directly to spa water.

**Note:** If water hardness level is above 400ppm, double the weekly maintenance dosage.

**Do not exceed recommended dose.**

**Do not use with biguanides.**
