

Purge™ Instructions

Directions for use:

For standard pools with up to 2 skimmers, divide the bottle of **Purge** bottle equally between skimmers.

Note: if pool has additional skimmers, more **Purge** is required (32oz per additional skimmer)

1. With circulation pump running and sanitizer level below 5ppm, add recommended dosage to the skimmer(s).
2. Circulate for 24 hours with pump running continuously.
3. Backwash or clean filter.
4. After the 24 hours, superchlorinate the pool.
5. Proceed with regular pool maintenance.
