The Zulu slide features a 5-foot high ladder-style climbing wall and an exhilarating zero-entry slide making it an exciting end to any challenge course. The Zulu can accommodate up to 2 participants and connects on 1 side using the Interloc™ system with additional 5 piece Quickstraps™.

### Zulu Technical Features

#### Duratex™

##### Commercial grade fabric reinforced PVC material.

Ideally suited for watersports, Duratex material is the finest, commercial grade fabric reinforced PVC available. Each Aquaglide® Platinum™ item uses Duratex material for maximum strength and durability.

The Zulu incorporates 1000d fabric fused with layers of 28 oz PVC.

#### 3 Year

##### Limited Warranty against any and all manufacturing defects.

Each Aquaglide Platinum item offers a warranty covering any and all manufacturing defects for an extended period of time. The Zulu includes a 3 Year warranty for recreational use, a 1 year warranty for commercial use.

#### HA Weld™

##### Hot air-welded seams for high quality and outstanding durability.

'HA' or Hot Air Welding is the process used to fuse Duratex material seams for years of trouble-free use.

HA welding produces clean, strong seams with no unsightly glue marks or splits.

#### UP Grip™

##### Incorporates convenient climbing handles.

Convenient climbing handles allow for boarding and/or climbing while staying out of the way for other activities. The Zulu incorporates lots of sturdy handles for climbing and stability while on board.

#### UV Block™

##### Materials specially treated for high resistance to the sun's damaging rays.

Each Aquaglide Platinum item is treated with UV Block, the highest grade 3-year UV coating available. While we recommend periodic maintenance with additional UV coatings, there is no substitute for having UV Block incorporated into the material right from the start. UV Block, for years of trouble-free use.

#### Challenge

##### Designed to easily integrate into a challenge course.

The Adventure Series™ is a select grouping of Aquaglide Platinum items designed primarily for use in challenge course tracks and circuits

#### EN Compliant

##### This product complies with all DIN EN 15649 product safety standards.

DIN EN 15649 is a rigorous product safety standard designed specifically for floating leisure items.

#### 4-Way Connect

##### Integrated connections on all four sides.

Convenient Interloc connections on all four sides for use in corners, T-junctions, or intersections.

#### Quickstrap™

##### This product includes Interloc™ Quickstrap™ for fast connections.

The highest grade of Interloc strap available, Quickstraps include #304 Stainless Steel buckle snap hook making connections with other items a breeze.

#### HD Grip™

##### Incorporates heavy duty molded handles for convenient boarding and/or transport.

Heavy Duty molded handles allow for convenient boarding and/or transport.

#### Interloc™

##### Heavy duty stainless fittings and convenient Interloc straps for modular use.

Aquaglide Platinum items connect to one another using the Interloc system. Soft webbing offers some flexibility, while remaining tough enough for years of service.

Only Interloc blends the convenience of a cinch with the security of a locking connection.

### Zulu Functional Features

#### Climb

##### Incorporates a climbing feature.

Build eye-hand coordination, and appreciate a true sense of accomplishment on this Platinum climbing feature. Feel the rush of adrenaline as you climb!

#### Slide

##### Incorporates a sliding feature.

Capture the essence of the aquapark experience! Few things are more fun than whooshing into the water on a Platinum slide.

#### Balance

##### Incorporates a balance feature.

Build balance skills, spar with a friend, or create a challenge course. This balance feature adds endless excitement to your Platinum aquapark.
