PAL™
LIGHTING

PAL Revive™
10" POOL LIGHT + 6” SPA LIGHT

FEATURES

- UL676 Listed for Pool / Spa use
- Compatible with major pool automation systems.
- Replaces major Pool Lighting Brands
- Fast Retrofit Solution for aging Pool & Spa lights.
- Patented lighting control technology delivers advanced wireless operation.

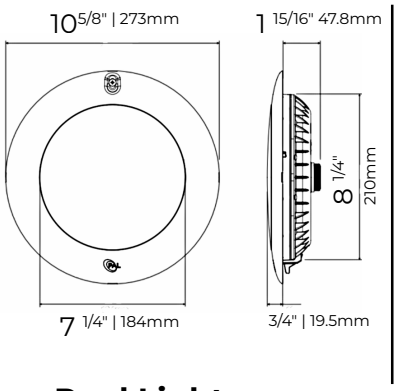

SUMMARY

PAL Revive™ is a fast, simple replacement lighting solution built for the service trade. It upgrades aging Pool & Spa lights with brighter, full-color LED performance and wireless Sonar™ remote control.

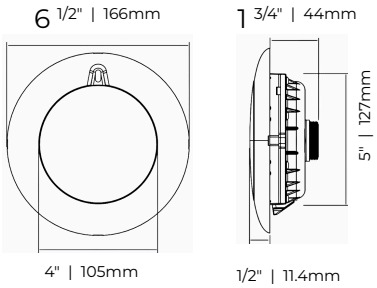

Fits most standard 10" Pool & 6” Spa niches. Installs in three steps **Remove, Connect, Revive.**

Available with PAL’s **Cut & Replace™ Kit**, allowing the existing cable to be re-used, or with a **150ft cable** for installations requiring a new cable pull.

DIMENSIONS

Pool Light

Spa Light

64-PAL-SPA-REVIVE-100	Spa light, 100ft cable, Remote
64-PAL-SPA-REVIVE-150	Spa light, 150ft cable, Remote
Spa Light Kits	
64-PAL-SPA-REVIVE-100-T	Spa light, 100ft cable, Remote, Sonar Wi-Fi module, Transformer

Optional: Sonar Wi-Fi (64-PAL-SW)

Driver / Transformer Required: PCR-2T-65 driver / transformer (24V DC) or any 12V-14V AC transformer.

If using the PAL PCR-2T-65 driver / transformer, each Revive 65W transformer can support any combination of Pool (27W) and Spa (10W) lights up to a maximum combined load of 52W. Maximum load per 65W transformer: 52W (80% of nominal capacity.)

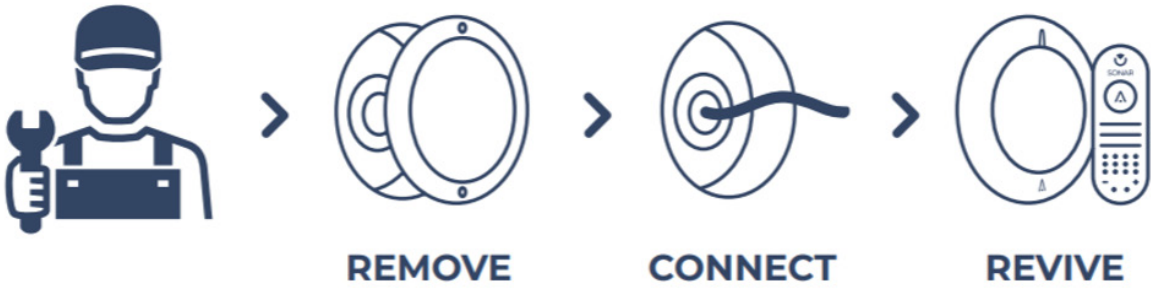

Examples:
1 Pool + 2 Spa Lights = 47W (can operate on one 65W driver / transformer)
2 Pool Lights = 54W (requires an additional driver / transformer)

INSTALLATION OVERVIEW

PAL Revive™ - Three Ways to Install

PAL Revive™ offers three flexible installation options, making it easy for pool professionals to replace outdated pool lighting. Choose the configuration that best fits the installation's needs.

1. Revive with Cut & Replace	2. Revive Light + Cable	3. Revive Complete Kit
Reuse the existing cable with a new PAL Revive light.	Direct replacement with a new PAL Revive light & new cable.	Everything including driver/transformer & Wi-Fi control.
		
Ideal for installations where pulling new cable through existing conduit is difficult or impossible. PAL's innovative Cut & Replace harness kit allows installers to cut the cable from an old pool light and reuse it by attaching a new connector for the Revive light. Once installed, use the included PAL Sonar wireless remote to control the PAL Revive light.	A straightforward replacement solution using a new PAL Revive light and a new PAL Revive cable. • Choose from 50 ft, 100 ft, or 150 ft cable lengths. • Connect to any 12V AC transformer or use a PAL PCR-2T-65 driver/transformer. • Ideal for lighting replacements without the need for app-based control. • Use the included PAL Sonar wireless remote to control the PAL Revive light.	An all-in-one solution for upgrading pool lighting with convenient wireless control. The complete kit provides everything needed for installation, plus the ability to control the lighting using app or included wireless remote.
KIT INCLUDES • PAL Revive LED Light (Pool size or Spa size) • PAL Cut & Replace Harness Kit • PAL Sonar wireless remote	**KIT INCLUDES** • PAL Revive LED Light (Pool size or Spa size) • New cable (50 ft or 100 ft or 150 ft) • PAL Sonar wireless remote	**KIT INCLUDES** • PAL Revive LED light (Pool size or Spa size) • 100 ft Cable • PAL PCR-2T-65 driver/transformer. • PAL Sonar Wireless handheld remote • Sonar Wi-Fi module (enables app-based control of PAL Revive lights.)
Revive with Cut & Replace Install light, reuse the existing cable and connect to a transformer. Control with remote.	**Revive Light + Cable** Install light, install a new cable and connect to a transformer. Control with remote.	**Revive Complete Kit** Install light, install a new cable, and connect to the included driver/transformer. Control with remote or use the included PAL Sonar Wi-Fi module for app-based control.
