

SpeedZone[®] SOUTHERN^{EW} BROADLEAF HERBICIDE FOR TURF

Proven Performance in an EW formulation

WHAT IT IS

SpeedZone[®] Southern EW Broadleaf Herbicide for Turf features an advanced emulsion in water formulation that provides the same rapid broadleaf weed control that made SpeedZone Southern an industry favorite. SpeedZone Southern EW delivers visible activity in hours, with weed death occurring within 7 to 14 days. And SpeedZone Southern EW does it with a lower odor profile and lower Volatile Organic Contents (VOC) compared to original SpeedZone Southern.

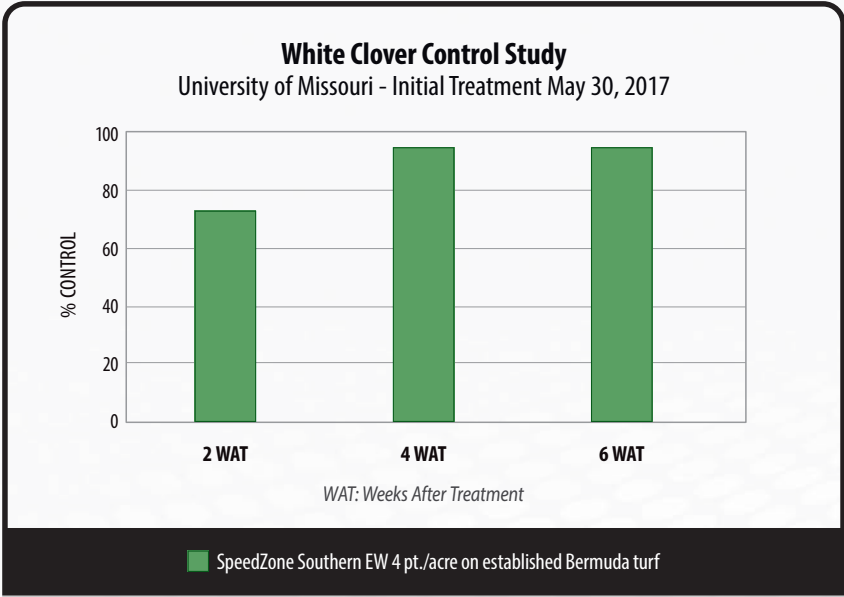

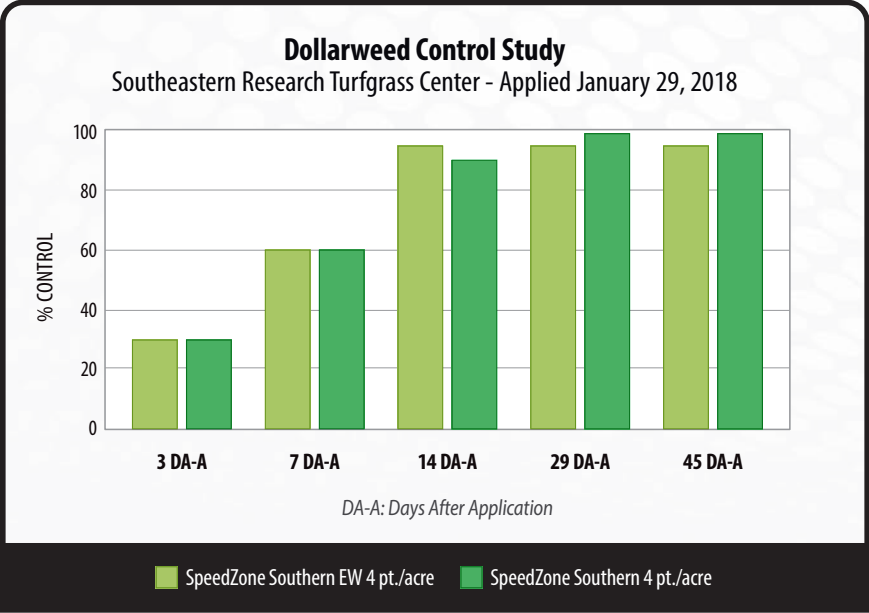

WHAT IT DOES

SpeedZone Southern EW Controls	Labeled for Use On	Ideal for Use On
<ul style="list-style-type: none"> • Dollarweed • Dandelion • Clover • Plantain • Ground ivy • Spurge • Other broadleaf weeds as listed 	<ul style="list-style-type: none"> • St. Augustinegrass • Bermudagrass • Bahiagrass • Zoysiagrass • Buffalograss • Centipedegrass • Seashore paspalum • And cool-season turfgrasses as listed 	<ul style="list-style-type: none"> • Residential sites • Golf courses (excluding greens) • Commercial areas • Athletic fields • Sod farms • Roadsides • Cemeteries

*Pending state registration
