

NO METALS. NO STAINS. NO WORRIES.

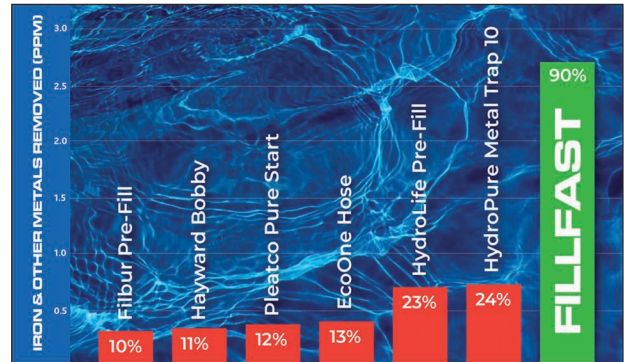

The FillFast™ Inline Filter System delivers crystal-clear, metal-free pool water from the start. Designed for swimming pools, spas, and fountains, FillFast™ uses the power of patented CuLator® polymers to remove rust, iron, copper, manganese and other stain-causing metals before they enter your pool. **Prevention beats correction!**

INLINE FILLFAST™

The **FillFast™ Inline Filter System** removes up to 15x more metals than competing filters using patented polymer technology that captures stain-causing metals before they enter your pool. Just connect and fill, it's that easy to keep your water clean, clear, and stain-free.

With everything you need for quick installation, **FillFast™** attaches directly to any garden hose or autofill line for instant, continuous protection.

No stains. No discoloration. No comparison.

FILLFAST TOPS THE CHARTS!

FILLFAST FILTERS CHANGE COLOR INDICATING METALS REMOVED!

YOUR POOL'S FIRST LINE OF STAIN DEFENSE

- **Removes** stain-causing metals like rust/iron, copper, manganese and more!
- **Prevents** Staining and water discoloration.
