

Streamline Your Projects: Build Custom Water and Fire Features Faster, Easier, and Cleaner.

PRO-FIT CABINET KIT

FAST INSTALLATION

Can be assembled quick. No foundation needed perfect for existing pavers you don't want to disturb.

NO MASONRY EXPERIENCE REQUIRED

Uses prefabricated components. Basic DIY skills

VERSATILE FINISHES

Accepts various finishes like cladding, stacked stone, tile, textured acrylic etc. Pre-finished kits available.

CLEAN CONSTRUCTION PROCESS

No need for mixing concrete or mortar.

UPFRONT VS. LONG-TERM COST

Predictable upfront cost for a finished product. Potential savings if buying in bulk.

CONSTRUCTION

Rigid aluminum frame - designed to never rust, set, or break. Magnesium Oxide (Mgo) Boards -resistant to mildew, mold, and rot, flame spread rating of 0.

MASON BUILT (BLOCKS)

TIME-CONSUMING & LABOR-INTENSIVE

Requires significant footings (digging, pouring concrete). Can take a couple days to complete.

ADVANCED SKILL LEVEL

Requires advanced masonry skills

LIMITED FINISH OPTIONS

Primarily suited for stone veneer or or stucco.

MESSY CONSTRUCTION PROCESS

Requires digging, mixing concrete, cutting blocks.

UPFRONT VS. LONG-TERM COST

Potentially lower upfront cost is quickly lost to intense labor, high mistake probability, wasted materials, and costly re-work.

CONSTRUCTION

Welded tubular steel is prone to rust, bleeds orange onto pavers. Fiber Cement Board is heavyweight susceptible to cracking
