VGB COMPLIANT DEBRIS DRAIN

NO HOSES.
NO HASSLES.
NO KIDDING.

DEBRIS REMOVAL SIMPLIFIED

Paramount® engineered the MDX-R3 debris drain to effectively eliminate large debris and dirt from your pool or spa. Combined with a Paramount in-floor cleaning and circulation system, the MDX-R3 keeps your pool clean and swim-ready year after year with far less maintenance than portable or robotic cleaners - and without the hassle of hoses, tangled cords, or broken wheels.

- Outstanding for concrete, vinyl, and fiberglass pools as well as spas, overflow basins, and fountains, anywhere debris needs to be removed.

- Large capacity sump eliminates plugged drain service calls by allowing most debris to pass through.

- Specially designed to protect against hair, limb, body and mechanical entrapment while efficiently accepting large debris.

- VGB 2008 Compliant. IAPMO tested to meet the ANSI/APSPICC-16 -2017 anti-entrapment requirements.

PEACE OF MIND

The included SDX2 VGB-compliant high-flow safety drain provides full-flow anti-entrapment redundancy.
