

CITYSTONE™ DEMI 60MM

PRODUCT NUMBER # 363

- Smooth surfaces and classical chamfers define each stone to create texture and visual structure with timeless appeal
- Designed to be installed in an efficient repeating runner or ashlar pattern, with equal numbers of 1/2, square, and 3/2 stones
- Light vehicular applications
- Demi and Supra can be combined to create a six-piece system with expansive, industry-leading scale
- Made of durable concrete with iron oxide pigments which helps prevent fading from extended UV exposure. Meets or exceeds applicable requirements of ASTM C936 and C1782.

The CityStone series shares a common architectural look in which texture is defined by the joint pattern. Joints and surfaces meet ADA gap and lippage requirements. The extensive range - from 4x4 to 24x24 - of CityStone shapes yields unlimited creative control to satisfy your design intent. CityStone's generous chamfers control lippage even in challenging large-format / non-planar installations.
