

BROADSTONE® 6IN ROCKFACE

PRODUCT NUMBER # 781

- Rugged exterior evokes the look and feel of naturally weathered stone
- Integral shear lugs easily mate with continuous shear channel to ensure precise setback and eliminate the material and labor costs of connectors
- Superposed webs make core-filling fast and complete, best-in-class weight and rounded grips make handling safer and easier
- Low batter maximizes buildable site area
- Made of durable concrete with iron oxide pigments that resist fading in extended UV exposure. Meets or exceeds applicable requirements of ASTM C1372

The BroadStone series minimizes retaining wall installation costs while maximizing structural performance and aesthetics. Labor is reduced by drop-and-click placement, plumb-line core filling, and connectorless installation. Material is reduced by maximizing core-filled volume, eliminating connectors, and increasing coverage per truckload. BroadStone delivers these advantages across a full line of block heights and face styles, including multi-piece and ashlar options that install at single-piece speed.
