BROADSTONE® 8IN ROCKFACE

PRODUCT NUMBER # 771

- Rugged exterior evokes the look and feel of naturally weathered stone
- Integral shear lugs easily mate with continuous shear channel to ensure precise setback.
- Superposed webs make core-filling fast and complete. Best-in-class weight. Rounded grips make handling safer and easier
- Low batter maximizes buildable site area
- Made of durable concrete with iron oxide pigments that resist fading in extended UV exposure.

The BroadStone® series minimizes retaining wall installation costs while maximizing structural performance and aesthetics. Labor is reduced by shear lug connectors, and core filling. Material is reduced by maximizing the core-fill volume, which provides increased coverage per truckload and reduced shipping costs. The BroadStone® family of products delivers these advantages across a full line of block heights and face styles.
