VENETIAN® FLAG 60MM

PRODUCT NUMBER # 369

- Riven stone surfaces and chamferless edges create the striking shadowlines and textures of split flagstone
- Designed to be installed in a Cairo pentagonal pattern
- Vehicular and pedestrian applications
- Made of durable concrete with iron oxide pigments which helps prevent fading from extended UV exposure.
- Joints and surfaces are designed to create a natural look and minimize furniture wobble

The Venetian Flag creates dramatic and dynamic interaction with sunlight through its cleft and chamferless surfaces, which evoke the timeless appeal of split flagstone. Far easier to install than competing products, Venetian Flag self-terminates on a 2 foot grid - both inside and outside corners are formed with no cuts. Venetian Flag can also form a 4 foot wide walkway with no cuts, and its half stones combine to form a whole stone which is absorbed into larger fields.
