

KEYSTONE STANDARD® STRAIGHT

PRODUCT NUMBER # 110173

- Crisp and distinctive, the straight split face effectively showcases the color within each unit
- Installed with 1/2in diameter, pultruded fiberglass pins. Allowing for a near vertical or setback installation, Keystone interlocking pins improve interaction with geosynthetic textiles and feature 6,400 psi shear strength
- Superposed webs make core-filling fast and complete. Best-in-class weight. Rounded grips make handling safer and easier
- Low batter maximizes buildable site area
- Made of durable concrete with iron oxide pigments that resist fading in extended UV exposure.

The product that started the retaining wall industry is still the industry leader for tall walls and critical structures. The Keystone Standard unit's depth provides unrivaled structural stability. From backyard landscaping to large, load-bearing reinforced structures, the Keystone Standard unit's face styles, colors and design possibilities make it a favorite of architects and engineers worldwide.
