

THE ULTIMATE SPLASH ZONE ADVENTURE

THAT
MOVES
WITH YOU!

AQUANINJA® FLX

Get ready to shake up your aquatic space! AquaNinja® FLX is the game-changing play feature that brings serious fun to pools everywhere. With its eye-catching design and thrilling dynamic movement, this isn't just another pool toy, it's a whole new way to play on water!

FLEXIBILITY THAT FITS YOUR VISION

AquaNinja® FLX combines the muscle of a stainless steel structure, flexibility of fiberglass rods coupled with Dynamic Isolators™ and the bounce of vertical Gravity FLX Rods to really create something truly special. The result? A stunning structure that looks amazing without stealing the show from your overall design.

Best part? It works with your existing pool deck and stretches anywhere from 20 to 50 feet. That means you can add major wow-factor without major renovations!

A **GAME CHANGER** for aquatic facilities!

EVERYONE GETS TO PLAY

Built on our “Challenge by Choice” philosophy, AquaNinja® FLX welcomes everyone to the party! Whether you’re 8 or 80, a first-timer or a ninja master, there’s a path for you. Mix and match challenges that test balance, strength, and agility. Pick your difficulty level, build your confidence, and come back for more!

This is “Play Anyway” in action, because the best play is play that works for everybody.

CHALLENGE ELEMENTS THAT PACK A PUNCH

Our **Dynamic Isolators™** team up with vertical **Gravity FLX Rods** to give you movement you can count on. Every **Challenge Element** features soft-touch construction with grippy textured zones exactly where you need them. Translation? Safe, comfy, and slip-resistant fun!

Each uniquely shaped element tests different skills – upper body power, lower body strength, balance wizardry, and route-finding smarts. Bold, vibrant colors help you spot your next move and plan your attack.

Patents pending.
