## Ease of Application & Maintenance at a Price that's easy to Afford

An increasingly popular alternative to covering concrete is to make the surface both decorative and functional. Spray Deck System transforms typical dreary concrete surfaces into dazzling designs in just a few short hours.

Spray Deck System combined with unique pattern-stamping templates can permanently imprint newly placed concrete with authentic textures to match architectural features or blend into the landscape. The finish can last the lifetime of the concrete and is durable, sanitary and easy to maintain.

Besides adding years of life to concrete, Spray Deck is slip resistant and comfortable under the foot. The resulting floor finish is a combination of beauty and creativity that's durable and practical.

Maintenance is easy on such a beautiful surface. All you need is a garden hose and a few common household cleaners to maintain a like-new appearance of Spray Deck. Indoor or outdoor, horizontal or vertical, single color or a patterned design, Spray Deck will revitalize and enhance concrete surfaces.

## COLOR GUARD

Southcrete Color Guard Concrete Sealer is a unique water-based penetrating stain / sealer, designed to be used over the Spray Deck System to preserve a long lasting, colorful finish. Choose from 12 beautiful colors including white and clear seal to enhance the overall appearance and resistance of your surface. Can be used on existing concrete surfaces.

**SOUTHCRETE Color Guard Concrete Sealer is required over the Spray Deck Systems**

**ONE-STEP MIXING SYSTEM JUST ADD WATER**

**SOUTHCRETE Color Guard Concrete Sealer is required over the Spray Deck Systems**

One-Step Spray Deck is a pre-blended decking system that incorporates dry resin technology eliminating the need for liquid additives. Simply add water and spray or trowel apply over new or existing concrete surfaces. Available in 12 colors, this product is slip resistant and comfortable under the foot, it is a perfect choice for pool and spa decks, walkways, entrances and driveways in residential and commercial applications.

**TWO-STEP MIXING SYSTEM LIQUID RESIN & POWDER**

**SOUTHCRETE Color Guard Concrete Sealer is required over the Spray Deck Systems**

Southcrete Spray Deck is a two-part resinated deck system that includes liquid resin and powder that is spray or trowel applied over new or existing concrete surfaces. Available only in white, this product is designed for use on commercial and residential walkways and driveways, pool patios and similar decks to revitalize and enhance concrete surfaces.
