Power Supply

- No unexpected shutdowns due to water temperature or salt conditions
- PureChlor will produce chlorine down to 50 degrees and 500 ppm salt
- High levels of salt or high temperatures do not produce a shutdown
- Open range electrical connection for 120/240V- no rewiring or adjustment
- Power supply features double heat sink for extreme conditions

Salt Cell

- PureChlor cells have been produced in the same ISO 9001 factory for 15 years
- Cell body made from premium materials with UV inhibitors
- Pressure tested and certified to 100 psi
- Plates utilize a 10,000 hour commercial grade ruthenium coating
- Quick connects to power supply for clean, dry connection
