

Valve Actuator SPE24VA

The Super-Pro 24V valve actuator provides automatic control of valves for pool/spa combinations, water features, solar collectors, and pool cleaners. It works with most water valves and can be easily retro-fitted into all pool/spa combination systems for ultimate convenience.

APPLICATIONS:

- Pool to spa combinations
- Water features and fountains
- Solar collectors
- Pool cleaners

FEATURES:

- Provides automatic control of valves for pool/spa combinations, water features, solar collectors, and pool cleaners
- Adjustable cam rotates diverter valves to multiple degree settings
- Operates most 2-way and 3-way diverter valves
- Can be adapted to fit space saver valves
- Mountable in four different positions
- Includes a three-way toggle switch for ease of synchronization

SPECIFICATIONS:

- Electrical Ratings: 24 Volts, 60 Hz, 0.75 Amps
- Cord Length: 20 feet
- Applicable Valve Diameter: 1-1/2" or 2"
- Warranty: 1 year limited
