

**SUPERPRO®**  
maintenance & service

**Precision Made For Your Trade**

Powered by **SKIMLITE**

### **Twist-Proof Decagon Internal Tubing**

**No More Twisting!** Say goodbye to constant adjustments. Our locking mechanism keeps the pole firmly in place—even under intense pressure—so you can focus on the task, not the tool!

### **Seamless Strength - No Holes, No Weak Points**

**Built to Last.** Made with high-quality seamless tubing, this design eliminates common weak points. The result? A stronger, more resilient product that stands up to years of tough use.

### **New Standard: Thumb Screw Adjustment**

Now standard on all Lever Lock SUPERPRO® poles, the Thumb Screw allows fast, tool-free adjustments with a secure hold—built for pros, made to last.

### **Easy to Service**

Maintenance is a breeze. With easily replaceable parts and a user-friendly design, you'll spend less time fixing and more time getting the job done.

### **Pro Performance**

Built for daily, heavy-duty use by professionals who need reliable performance.
