

Trophy XRE

Tall Fescue

SEEDS & SCIENCE

Description

Trophy XRE turf-type tall fescue blend is a rich dark green blend of rhizomatous turf-type tall fescues. Rhizomes give plants the ability to spread densely across large areas, binding a lawn together and quickly filling in any damaged or open spots. The high incidence of rhizomes in Trophy XRE gives faster recovery from injury, superior wear resistance and better ability to recover from stress than other tall fescue blends.
