

PAL2

The portable PAL2 pool lift features a sleek, modern design and attractive matte finish. It comes standard with our Secure-It Kit which allows the lift to be fixed to the deck without the need for bonding. The PAL2 features the LiftOperator™ Controller that provides true operational redundancy from the control box and the handset.

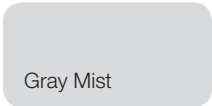

- Third party tested and verified ADA compliant
- 300 lb/136 kg lifting capacity
- 240° rotation to ensure safe transfer
- Powder coated stainless steel and aluminum
- LiftOperator Controller conveniently located on the mast*
- Completely portable – easily remove from the deck when the pool is closed

* LiftOperator is easily secured to the mast using the star wrenches provided in the accessory kit. Refer to the owner's manual at www.srsmith.com for more details.
