

SRW Silt Fence with Stakes

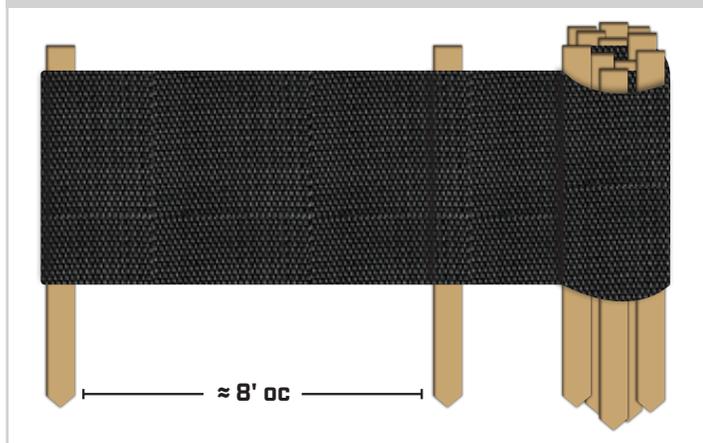

Silt Fence is a woven fabric that temporarily controls sediment on construction sites to protect water quality in nearby streams, rivers and lakes from sediment in storm water runoff.

Installation

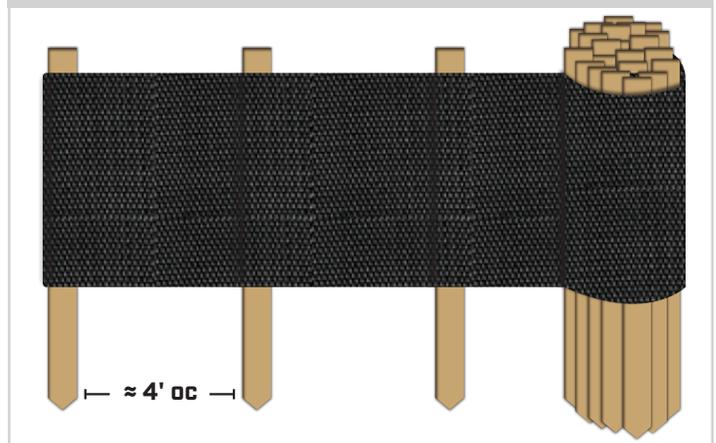

- 1** Dig a 6"x6" trench along the site perimeter or appropriate location.
- 2** Unroll the fence one section at a time and position the stakes on the downhill side of the trench.
- 3** Hammer each stake into the trench until bottom of the fabric is even with the bottom of the trench.
- 4** Backfill and compact.

13 STAKES/ROLL • BLACK OR ORANGE • 70G

26 STAKES/ROLL • BLACK • 70G

Need to Meet DOT Specs?

SRW Products offers Silt Fence to meet most specifications. Call for information: 1-800-752-9326.
