

WALL DRAIN PRO[®]

Wall Drain Pro[®] is a simpler, more effective wall drain. The Wall Drain Pro[®] provides an improved way to daylight retaining walls by solving water drainage in a visually pleasing way.

Benefits

- ▶ Aesthetically pleasing
- ▶ Easy installation
- ▶ Drain height easily modified for use with any size block
- ▶ Integral component of wall construction
- ▶ Reduced cutting means reduced labor costs
- ▶ Multiple color options to match the block

Applications

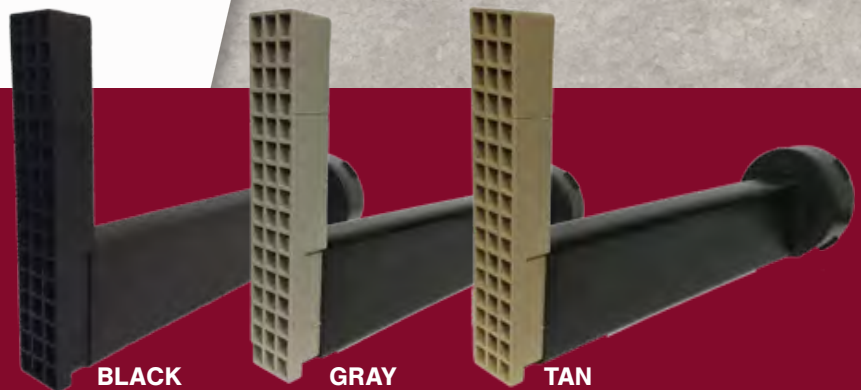

- ▶ Works with block or timber
- ▶ Designed for blocks with height of 8 in. high or shorter
- ▶ Installation at ground level
- ▶ End snaps into 4 in. (100 mm) drain tile
