MOD SHADE PULLEY SYSTEM

The Mod Kit pulley system is designed to effortlessly tension any shade sail. This system revolutionizes the way sails are stretched, providing optimal tension with minimal effort.

Key Features of the Mod Kit Pulley System:

- Effortless Stretch
- Integrated Cleat System
- Safety and Stability
- Optimal Inclination

OPTIONAL CLEAT

BASE OPTIONS

Shade Escapes offers diverse base options for our Mod Shade kits, allowing for versatile installations that cater to varying needs. Depending on the design and location requirements, customers can choose the perfect base for their shades.

Standard 75° Base:

- Comes standard with our Mod Shade kits.
- Ideal for most general applications.

Customizable 90° Base:

- Available for custom Mod Shade kits.
- Perfect for spaces that require a straight vertical pole setup.

Wall Collars:

- Designed for wall-mounted applications.
- Provides a secure attachment directly to existing walls.
