Waste Disposal Method:		Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. US EPA guidelines for the classification determination are listed in 40 CFR Parts 261. Additionally, waste generators must consult state and local hazardous waste regulations to ensure complete and accurate classification. RCRA P-Series: None listed. RCRA U-Series: None listed.					
		Observe all federal, state, and local environmental regulations. Contact a licensed professional waste disposal service to dispose of this material.
