

NEW

EVOLUTION® AG CONTROLLER

Introducing a simple, intuitive, economical controller that gives agricultural and horticultural growers the features they need now, and the ability to expand later.

Easy to Program & Operate

- » Built for Agriculture
- » Program any valve from 1 second to 24 hours
- » Easy manual runtime for water and fertilizer - any zone or schedule
- » Simple interface and familiar terminology

Two Fertilizer Channels

- » Simple to program:
- » Set delay time (to allow system filling and pre-wet)
- » Set fertilizer pump runtime

Simple Pulse Irrigation

- » Divide any application into run- or rest-time cycles

ADDITIONAL FEATURES:

- » Modular expansion: 4 valves, 8, 12, 16
- » Operate up to 4 valves at one time
- » Excellent diagnostics to identify and prevent problems
- » Wireless Remote
- » Dedicated Remote with 1,000 ft. range
- » Smartphone as a remote control*
- » Save and share programming by USB
- » One button toggle Spanish - English

*Controller must be within 1000 ft. of internet connection & be equipped with appropriate accessories

WHEN WE SAY **COUNT ON IT**, WE MEAN IT

With an expanding population, growers around the world are looking to technologies that help increase productivity of existing land and maximize precious water resources. Toro's drip irrigation solutions help growers of permanent, field and row crops around the world realize substantial benefits in yield, quality, and water savings from the precise application of water and nutrients.
