Results you can see.

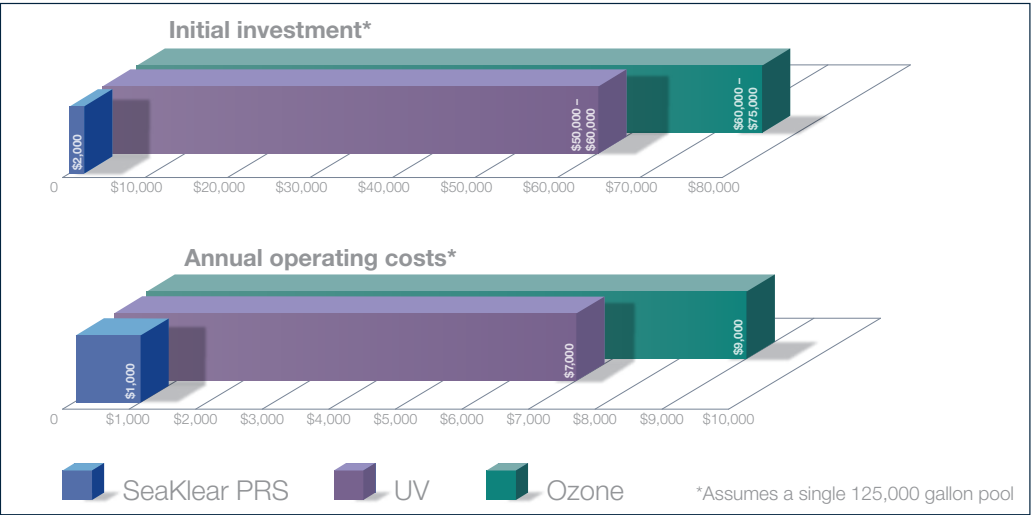

## Solutions

SeaKlear offers a complete line of products designed, developed, and tested to solve your most complex water quality issues. We understand the challenges of providing cost-effective, timely, and simple solutions to meet the various needs of a broad audience of stakeholders, from municipalities to private property owners, facility managers, and the public.

## Savings

Our flagship product, SeaKlear PRS, offers results you can see both in your pool and in your bottom line. Not only does it provide proven enhanced filtration to remove contaminants for clean, clear water, but the initial investment combined with ongoing cost of operation are significantly lower than either UV or Ozone systems.

# PRS

Sizes: quart, gallon, 5 gal, 55 gal

Our award-winning, two-part system is formulated to prevent RWIs by enhancing filtration, thus trapping *Cryptosporidium*, *E. coli*, *Giardia*, and other organisms in the pool's filter. PRS is the ultimate water clarity problem solver, taking water "beyond blue."

- Dual-stage water treatment for RWI prevention, and superior water clarity agent.
- US EPA qualified as a trap for *E. coli*, *Giardia* and *Crypto* on filters.
- Great value compared to UV, Ozone, Regenerative Filters.
- Turbo-charges filter performance, removes particles down to .05-Micron.
- Removes both organics and non-organics.
- Highest ROI of any ancillary water chemistry.

- Ideal for pools, spas, spray grounds, and interactive fountains.
- Can be auto fed or manually applied daily.
- Small footprint, easy to retrofit.
- Increases safety.
- Unaffected by temperature or high levels of sanitizers.
- Cannot be overdosed.
- WQA certified to NSF60/ANSI standards.

## NATURAL CLARIFIER

Sizes: 4 oz., quart, gallon, 5 gal, 55 gal

SeaKlear Natural Clarifier is ideal for preventing common cloudiness. It effectively clears away dirt and oil with a simple dose, and leaves your pool water clean, clear, and sparkling.

- Strongest, proven effective and environmentally friendly, chitosan-based clarifier.
- Enhances filter's performance and longevity.
- Removes high levels of organics and non-organics.

- Positive ROI, reduces maintenance cost and time.
- Increases safety.
- Unaffected by temperature or high levels of sanitizers.
- Cannot be overdosed.

## RESCUE KLEAR

Sizes: 4 oz., quart, gallon, 5 gal, 55 gal

SeaKlear's flagship Natural Clarifier is blended with scum-fighting enzymes to tackle the most serious cloudy water emergencies. SeaKlear Rescue Klear is the ideal solution for cleanup after pool parties, vandalism, and weather-related disasters. And, best of all, it's made from natural environmentally friendly ingredients.

- Works faster than other troubleshooters, without waiting for shock or high sanitizer levels to dissipate.
- Best value available in its water care category.
- Can be used as a maintenance product.
- Removes high levels of organics and non-organics.

- Residual of broad-spectrum natural enzymes aid in the final clean up of organics and oils
- Increases safety.
- Unaffected by temperature or high levels of sanitizers.
- Cannot be overdosed.

## FREE & KLEAR

Sizes: quart, gallon, 5 gal, 55 gal

Our three-in-one formula makes weekly pool maintenance simple by combining three key ingredients: best-in-class clarifier, phosphate remover, and enzyme cleaner.

- Provides year-round phosphate control and water-quality enhancement.
- Easy one-product solution effectively replaces multiple bottle systems, with no need to change products.

- More effective, removes up to 333% more phosphates than other systems.
- Residual of broad-spectrum natural enzymes aid in the final clean up of organics and oils once pool water reaches normal swimming temperatures.

## PHOSPHATE REMOVER COMMERCIAL STRENGTH

Sizes: quart, gallon, 5 gal, 55 gal

Our most powerful phosphate removal treatment. Best-in-class SeaKlear Phosphate Remover Commercial Strength removes 9,000 ppb (parts per billion) pH in a single dose in 10,000 gallons, making it the optimal solution for commercial pools, for service professionals, and to combat extreme phosphate problems.

- Best in class, one bottle of SeaKlear's phosphate remover can replace up to 16.7 liters of similar products available in the industry.
- In many cases a single application is enough to achieve a near zero level of phosphates.

## 90-DAY ALGAE PREVENTION & REMOVER

Sizes: quart, gallon, 5 gal, 55 gal

The industry's leading SeaKlear 90-Day Algae Prevention & Remover offers a 90-day no-algae guarantee when used according to the directions in properly maintained and balanced pool water.

- Industry longest lasting formula.
- Kills or prevents all types of algae (EPA Reg. No. 72083-1).
- Advanced triple chelation process makes it non-foaming (perfect for water features) and non-staining when used in properly maintained and balanced pool water.
- Algae-Free Guarantee when used according to directions in balanced pool water.

## CHLORINE-FREE SHOCK OXIDIZER

Sizes: 25 lbs, 50 lbs

SeaKlear Chlorine-Free Shock Oxidizer is our leading oxidizer solution that keeps your water clear and odor free. By eliminating organic contaminants, suntan oils, and perspiration, your sanitizer will be active in killing germs, instead of creating odor-causing, eye-stinging byproducts.

- 100% DuPont™ Oxone® which results in superior and more cost-effective oxidizing performance.
- For pools 30,000 gallons and above, swimming can resume in as little as an hour.
- Treats with active oxygen, not chlorine.
- Use with bromine, mineral purifiers, ozone, or chlorine-based systems for pools, spas, and hot tubs.
- 45.2% potassium monopersulfate and 4.7% active oxygen.

## AQUARIA NATURAL CLARIFIER

Sizes: quart, gallon, 5 gal, 55 gal

SeaKlear Aquaria Natural Clarifier is an all-natural marine biopolymer that clears cloudy water. It is made from the shells of crustaceans, making it 100% biodegradable and eco-friendly. Our exclusive formula provides superior water clarity without harming the environment.

- Quickly clarifies cloudy water.
- Removes oily residue.
- 100% natural and biodegradable.
- WQA certified to NSF60/ANSI standards

## AQUARIA PHOSPHATE REMOVER

Sizes: quart, gallon, 5 gal, 55 gal

SeaKlear Aquaria Phosphate Remover effectively removes phosphates and prevents phosphate loading from animal waste, food, and environmental conditions.

- Fast-acting reaction starts working immediately.
- Creates a strong bond to prevent reintroduction.
- Captures orthophosphates to allow for easy removal by the filter.

## ADDITIONAL SPECIALTY SOLUTIONS

Yellow Klear • Problem Klear • Phosphate Remover CR • Stain Prevention & Remover • Metal Klear • Natural Stain Remover • Thick Tile & Vinyl Cleaner • Aquaria PRS • Aquaria Pond Cleaner  
Also available: SeaKlear SPA products. Liquids are available in bulk sizes upon request.

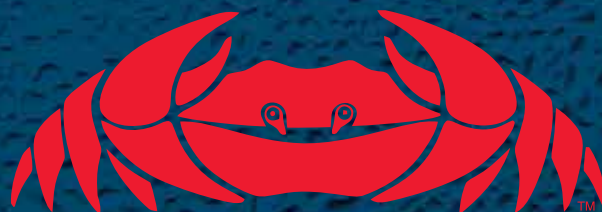

## Our Story

Our award-winning SeaKlear has been a leading developer of natural water treatment products for commercial recreation facilities since 1981. Using a naturally occurring substance derived from crab shells, SeaKlear provides a better standard of water care while helping to reduce waste from the seafood industry. Each one of our chitosan-powered products is eco-friendly and biodegradable, and works to extend the life of pool and hot tub water by reducing oils and contaminants in a natural and effective way.

SeaKlear is a division of HaloSource, a strategic alliance of scientists and industry experts working towards improving water quality all over the world. Our team of chemists, biochemists, and microbiologists holds over 100 patents, giving us the power to provide environmentally conscious solutions.

At HaloSource our mission is to make water better and help return it back to its natural state.
